## PROFILE

Software Engineering student skilled in both backend and frontend development, with a focus on Python, Django, and building full-stack web applications.

## PERSONAL PROJECTS

### Weather World Application (Mobile App and Web)

Flask · Flutter · Bootstrap · JavaScript · API · Jira · SQL  
05/2024 - 07/2024

- **Developed and launched** a web and mobile app for global weather updates and forecasts.
- **Integrated complex APIs** to manage real-time data effectively.
- **Oversaw full-stack development**, ensuring seamless cross-platform performance.
- **Optimized user experience** across devices, tackling significant challenges.

### QuickTalk Chat Application

React · Firebase · JavaScript · CSS  
08/2024 - 09/2024

- **Developed** a real-time web-based chat application allowing users to send text, images, and voice messages.
- **Implemented Firebase** authentication and real-time Firestore database for dynamic and responsive messaging features.
- **Enhanced UX** with emoji integration, real-time audio message recording, and dynamic media uploads.
- **Developed seamless** communication between React front-end and Firebase back-end services

### Blog Application

Django · Bootstrap · JavaScript · SQL  
03/2024 - 05/2024

- **Designed and implemented** a feature-rich blog platform from scratch.
- **Ensured responsive** design and smooth user experience across all devices.
- **Managed database** integration and efficient data handling for scalability.
- **Developed full-stack** functionality with user authentication, post management, and comment moderation.

## EDUCATION CERTIFICATES

2022 - 2025

### UNIVERSITY OF EUROPE FOR APPLIED SCIENCE

- Bachelor of Software Engineering

#### Courses Taken

- Python Programming
- Start-Up Management
- Software Engineering
- Cloud Computing

2023 - 2024

### PYTHON AND DJANGO DEVELOPER BOOTCAMP

#### Acquired Skills

- Python Programming
- Django Development
- Full Stack Development
- Data Bases Integration
- HTML Frameworks Usage

## TECHNICAL SKILLS

#### Back End Development:

Python · Django · Flask · Flutter

#### Front End Development:

JavaScript · React · Bootstrap · HTML · CSS

#### Additional Skills:

Jira · Microsoft Intune · AWS · Linux

## LANGUAGES

- Ukrainian(native)
- Russian(native)
- English(full professional)
- German (basic)
